RIGHT FOR YOU

Homeowners have been choosing Payne indoor comfort equipment since D.W. Payne and sons started making the right products for their west coast customers in 1914.

Today, homeowners all across the United States recognize Payne as the brand that delivers comfort and convenience at an affordable price. So if you're looking for indoor comfort equipment to fit your lifestyle, you've found the right brand. Payne offers the right products at the right price and your Payne dealer can install them right away.

Warm Up with **Payne**

We all need time to relax and enjoy the comfort of our own homes. And, even the most active people need down time to rejuvenate their minds and bodies. That's why our home comfort equipment is designed to offer homeowners the consistent, affordable and hassle-free indoor comfort they deserve.

With Payne's family of reliable gas furnaces, you can look forward to enjoying the comfort of your home with quiet furnace operation, low utility bills and minimal maintenance. Just set your thermostat and let Payne's proven heating technology take care of the rest.

The Models PG8M and PG8J (low NOx) deliver soothing comfort while taking it easy on your budget. Offering 80% AFUE (Annual Fuel Utilization Efficiency - the higher the AFUE, the better), these furnaces save money on operation, especially when compared to older, 60 - 70% AFUE gas furnaces. And, you can count on saving year-after-year because of the long-lasting performance you expect from Payne.

Models PG8M and PG8J (low NOx)

SMOOTH OPERATION

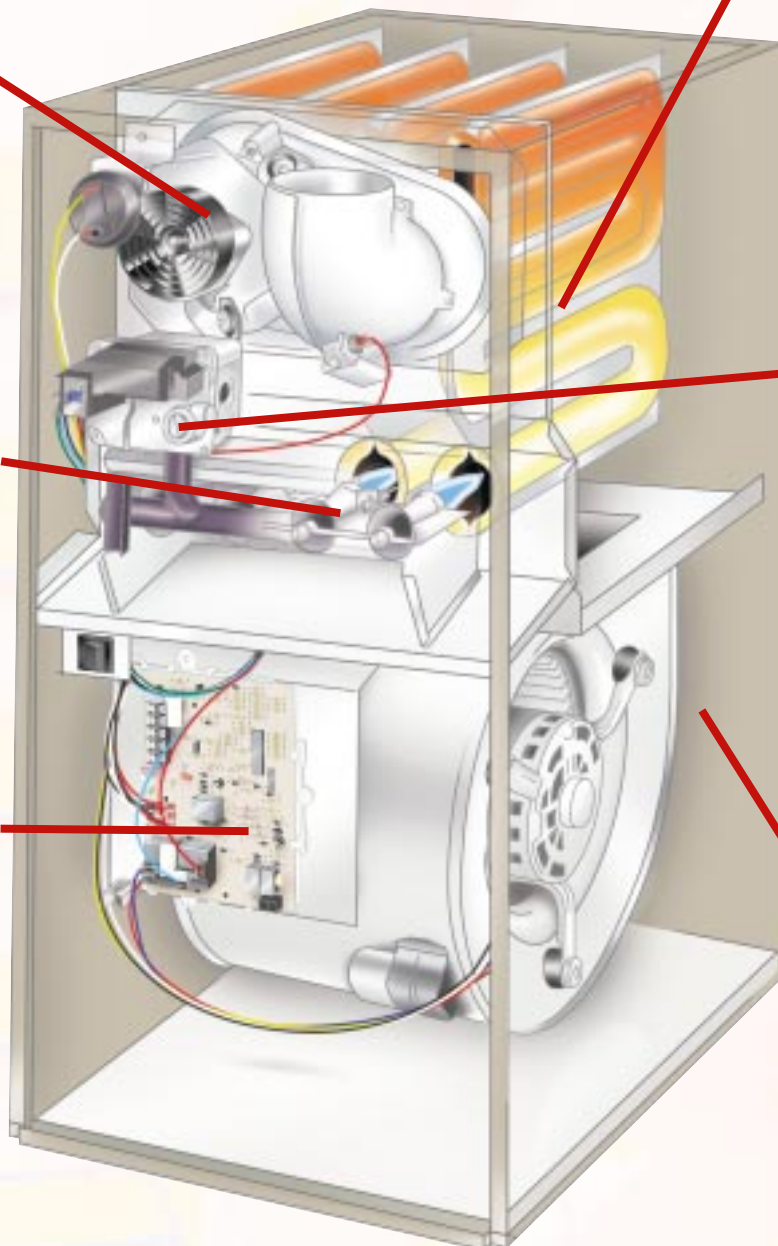

You can relax in quiet comfort thanks to Payne's soft mounted inducer motor, which reduces operational noise.

MONEY-SAVING EFFICIENCY

Payne's hot surface ignition improves the efficiency of furnace start up and operation by eliminating the standing pilot light.

PRECISE COMFORT CONTROL

You can count on accurate furnace control and performance because the electronic control board monitors furnace operation.

EFFICIENT, LASTING COMFORT

Payne's four-pass heat exchanger ensures high-efficiency heating. This key component is built to last and backed by a twenty-year limited warranty.

QUIET, RELIABLE START-UP

Payne's slow opening gas valve quietly starts the heating cycle so you can enjoy the warm comfort of your home without distractions.

ATTRACTIVE FINISH

The pre-painted, scratch-resistant cabinet is corrosion-resistant for long-lasting good looks.

More Comfort Options

Model PG9M Offering up to an impressive 92.1% AFUE, the Model PG9M condensing gas furnace conserves natural gas while delivering the comfort you deserve. The PG9M will keep you warm during the coldest winter weather while the energy efficiency will keep your heating costs to a minimum. The Model PG9M can also pull fresh outdoor air into your home for combustion to diminish drafts and reduce operational noise. This compact furnace is an easy fit into any home where comfort, efficiency and value are appreciated.

As an ENERGY STAR® Partner, PAYNE Heating & Cooling has determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

OUR WARRANTY

Payne offers comfort protection with written product and component warranties. All of these furnaces are covered with a one-year limited parts warranty for the entire unit. The heat exchangers are protected by either a twenty-year or lifetime limited parts warranty depending on model and application. Payne also offers optional extended warranty programs.

Hassle-Free **Comfort** with **Payne Thermostats**

Programmable Thermostat

Payne's programmable thermostat is the right accessory for homeowners interested in hassle-free comfort control. Just select the temperatures and times that match up to your schedule and let the thermostat do the rest. Your system will automatically adjust to provide comfort when you're home and maximum economy when you're away.

Thermostat

This attractive and reliable thermostat is designed to perfectly complement your new Payne gas furnace system. Its easy-to-read display makes operation a breeze.

Payne Is Your Total Comfort Connection.

An energy-efficient Payne furnace provides welcome warmth during winter's blustery chill. Add a Payne central air conditioner and you can also count on cool relief from summer's heat. By matching these two high-quality indoor comfort machines, you've taken a big step toward total, indoor comfort all year long.

**Gas Furnace,
Central Air Conditioner
and Evaporator Coil System**

Warm, Winter Heating with **Payne Fan Coils.**

Model PF

This fan coil provides the reliable and economical indoor air performance needed for use with all Payne outdoor units. The small compact size and insulated cabinet provides quiet operation. With the performance engineered into the design, indoor air quality, efficiency, and reliability are built into this unit for many years of worry-free operation.

Make The Right Choice: **Payne**

This brochure covers a lot of choices for your indoor comfort. No matter which of these products best matches your needs, you've made the right choice by choosing Payne. Payne has always been in the right place at the right time with the right products for homeowners just like you. By matching your needs with affordable and durable products for indoor heating, Payne makes it easier for you to quit worrying about your home and start enjoying your life.
