

WEATHER KING

Furnaces

90TJ 90% Downflow/Horizontal

The WeatherKing 90% Downflow/Horizontal is a value-alternative which enjoys the benefits of high-efficiency at lower cost.

- **Integrated Furnace Control**
Integrated control board manages all operational functions and provides accessory hookups for an electronic air cleaner.
- **Draft Inducer**
Quietly provides air for combustion while venting the products of combustion from the heat exchanger outdoors.
- **Hot Surface Ignition & Remote Sensor**
The hot surface ignition is an efficient method of gas ignition while the remote sensor monitors the flame.
- **In-Shot Burners**
Regulates the air/gas mixture.
- **Blower Motor**
An easy slide out blower motor for easy access. The blower quietly circulates air around the heat exchanger, where its heated to comfortably warm your home.
- **Primary and Secondary Exchanger**
Provides reliable and efficient comfort to your home by delivering heat quickly and evenly by extracting additional heat which is lost by less efficient furnaces.
- **Easily Converted** from downflow to horizontal.

Limited Warranty Information

20 year heat exchanger limited warranty.
All parts have a five-year limited warranty.

**All Models - 90% A.F.U.E.
or Above
Downflow/Horizontal
Models**

**Heating Capacities from
45,000 to 120,000
BTU/Hr**
