13 SEER Heat Pumps

Energy efficiency and exceptional heating and cooling performance backed by more than a half-century of proven reliability.

Efficiency:
13 SEER; 7.7 HSPF

Warranty:
5-year limited—compressor
5-year limited—components

Capacity:
1-1/2- to 5-ton

Easy to install and service

- Permanently lubricated condenser fan motor needs no annual maintenance
- Designed with ease of service in mind featuring hinged control panel for simple access to internal components
- Angled service valves are positioned to allow easy access with low-loss fittings and are set for direct and straight line-set access to the home
- Copeland® compressors have fewer moving parts for dependable, quiet operation

Built to last

- The compressors are designed for reliable and efficient money-saving performance
- Factory-installed, bi-flow liquid line filter driers protect the compressors from contaminants
- The corrosion-resistant cabinet is built from strong, heavy-gauge prepainted steel and has drain holes to quickly remove standing water from the base pan before corrosion can start
- Every heat pump is tested for leaks and proper operation at the factory to ensure faultless performance
- Charged for 15 feet of line-set
