Comfort Enhancements	
<b>Quality Construction</b>	You can count on AirEase 214LE air conditioners and heat pumps for years of dependable comfort. The <b>compressor</b> is engineered for maximum durability, while a <b>built-in filter dryer</b> helps protect the system from contaminants. Indoor components include <b>Microban® protected drain pans</b> which inhibit the growth of odor causing mold, mildew and bacteria. The <b>platinum gray cabinet</b> , with <b>horizontal louvers</b> and <b>appliance-like seams and contours</b> , provides an attractive appearance designed to complement every home.
<b>Energy Efficiency</b>	Compared with older, less efficient equipment, these air conditioners and heat pumps can help <b>reduce your energy costs</b> .† And with an efficiency rating of up to 15 SEER, these units help <b>lower your monthly utility bills</b> .
<b>Quiet Comfort</b>	The air conditioners and heat pumps are designed to provide maximum comfort while keeping sound at a minimum. A heavy-duty <b>insulation blanket</b> surrounding the compressor and the wire-fan discharge keep fan noise to a minimum and direct air away from your home and landscaping. Heat pumps use <b>QuietShift™ technology</b> to control sound when the unit is in the defrost cycle.

## Unit Dimensions

Model Number	Width (inches)	Depth (inches)	Height (inches)
<b>Air Conditioners</b>
