

Packaged Air Conditioners

Right for You

How can we say that Payne knows what's right for you? The answer is experience. D.W. Payne and sons started making the right products for their west coast customers back in 1914. Since that time, we've expanded nationwide with a brand that provides attractive, affordable products that work. These same principles apply to our family of packaged air conditioners. Because this solid lineup of comfort equipment carries the Payne name, you can be sure it's the right product at the right price.

One Cool Package

Keeping your cool is important, especially during the hot, summer months. That's why Payne is so excited about the PA3Z and PA3P packaged air conditioners. These products put affordability, durability, energy efficiency and reliable comfort all in one convenient package.

Starting with the rugged base, these units are built from the ground up to withstand Mother Nature's worst, resisting corrosion to ensure lasting product integrity. And because packaged systems include components typically found inside the home in traditional air conditioning systems, lasting durability isn't a luxury – it's a requirement.

**Model
PA3Z**

this product features an insulated cabinet for reduced noise so you can sit back and enjoy the comfort with the peace and quiet you deserve.

The PA3Z delivers soothing relief from summer's heat and is our most affordable packaged air conditioner. With 13 SEER efficiency and our rugged, durable base, this product delivers cooling you can count on season after season.

No matter which model you choose, you can breathe easier knowing that Payne packaged air conditioners provide outstanding moisture control to keep your indoor air as clean and pollutant-free as possible. Now that's a feature you can get comfortable with!

The PA3P offers 13 SEER (Seasonal Energy Efficiency Ratio) cooling efficiency. Like miles-per-gallon for a car, AFUE ratings allow consumers to compare fuel efficiency of air conditioners – the higher the number, the better the efficiency. It's our most versatile model, designed for both ground and rooftop installations. And because we believe that your comfort goes beyond simple temperature control to include your total indoor environment,

PAYNE

Payne is the Right Choice

Payne offers the right products at the right price, offering dependable, comfortable and efficient comfort season after season. So make the decision easy on yourself - choose Payne. When you do, you're choosing a long-standing history of indoor comfort products that are just right for you.

Our Warranty

All Payne packaged air conditioners are covered with a five-year limited parts warranty. Ask your Payne dealer for details.

What You Get With Payne

1 Lasting Comfort and Performance

When your system is running, air passes through the condenser coil, exposing it to any number of airborne corrosive agents. Payne condenser coils maximize heat transfer needed for cooling with large surface area and minimize damaging corrosion with copper tubing and aluminum fins.

2 Smooth, Efficient Operation

The heart of your cooling system, this rugged compressor provides years of economical cooling with its durable construction and smooth-running design.

3 Enhanced Indoor Air Quality

Our durable, composite base offers a solid, rust-free foundation for your comfort, while providing superior drainage and moisture control. By minimizing moisture inside the cabinet, we minimize the opportunity for growth of bacteria, mold, algae and other potential sources for airborne pollutants.

4 Year-Round Comfort

Our optional electric heat accessory package fits easily into the blower cabinet to provide heating for areas that require it.

Your Reliable Comfort Connection with Payne

Payne packaged air conditioners are designed with built-in mountings for solid, reliable installation on the ground or on a roof. Either way, you can expect long-lasting comfort and money-saving value for years to come.

Packaged Air Conditioner System

Install Now, Pay Later with Payne Financing

If you're like many people, your need for comfort doesn't always match your immediate ability to pay for it. So Payne makes your life easier with 90 days of no-interest financing. Pay it off in 90 days, and pay no interest. Or, spread your payments over time with a reasonable finance charge. Either way, you can enjoy comfort now, when you need it. For more details or to apply for Payne financing, go to www.Payne.com.
