

SpaceSaver® Residential Electrical Water Heaters

For installations where space is at a premium

Designed for installations in cottages, offices, mobile homes or other applications where space is limited, the SpaceSaver® line of residential electric water heaters provides optimum reliability, performance and energy efficiency. With unique and patented special features and a broad range of models and sizes, there is a GSW product to suit any application. Manufactured by GSW, a global leader in water heaters, our complete line of electric water heaters includes leading brand names like the John Wood® PRO Series professional line of products. With a manufacturing history that dates back more than 150 years, GSW is a North American leader in the design and manufacture of residential and commercial water heaters.

HIGH QUALITY FEATURES

- Patented TankSaver® design
- Glass-lined tanks for longer life
- Meets latest energy efficiency standards
- Factory-installed plastic lined nipples
- T&P factory installed
- Removable anodes
- Glvanized bottom pan protects water heater from corrosion
- Patented Styropour® base for added energy efficiency
- Thermostatically controlled long life elements
- CFC-free foam insulation
- Personnel protector covers elements and controls

Exclusive, patented innovation

The exclusive and patented TankSaver® design works to prolong tank life. TankSaver® impedes corrosion by guarding metal tank openings from exposure and keeping them watertight. The durable construction virtually eliminates rust.
